

## Joining S-Cubed's Executive Team 2013/2014

### Motivational Letter

I would like to join S-Cubed's executive team once again as it has been an eye-opening experience so far and I would like to continue this journey within the organisation. Throughout the past year I have learnt a great deal about the running of the society and the developing and hosting of activities. I believe that I have much to offer to the organisation, through the skills that I have already gained and by bringing forward new ideas and a fresh outlook on already existing initiatives. My participation in the executive team in the upcoming year will surely be one filled with motivation, energy and the determination to uphold the society's motto.
