

Motivational Letter:

During the first semester of my time on campus my life revolved around my studies. Thoughts of ever joining S-cubed in the past were quickly replaced with assignment deadlines and tests. Having said this, S-cubed's Science Communications team offered an opportunity I couldn't refuse.

Thanks to S-Cubed and this initiative, my work with the science communication team helped me become motivated to continue my second semester. Not only did I find myself feeling more proud and enthusiastic about completing my course, but I felt like I had joined an extended family at university. I honestly feel that this organization really brought the first years closer through events, seminars and the mutual passion for science.

Above all, joining the executive team makes me feel like I can give something back to an organization that has given me a lot to be thankful for. The prospect of being able to share my ideas and work in helping to keep this organization alive is something I'd look forward to. Regardless of the position I may be in, S-cubed will continue to be a big part of my life and I look forward to sharing my experiences and enthusiasm with prospective students to come.

Thank you for all your hard work and consideration,

Rebecca Camilleri

1st Year Student: Bsc Single Hons. Chemistry
