

Ever since Martina introduced me to S-Cubed, I immediately felt a sense of belonging towards the organisation, and so I decided to put forward my nomination to join the executive board. During the past 2 years I served the role of Secretary General, where I always had the opportunity to give what I had so that the students could benefit from. However, I also learnt a lot, and this experience helped me grow character-wise and also helped me look at things in a different perspective.

The above is partly why I am submitting my nomination for another year in the executive. I believe that I have a lot to offer for the organisation to grow and also to move forward. I also believe that S-Cubed has a lot more to offer, and more ways how it can include and affect more students in a positive way. I am ready to work harder than previous years to fully reach and represent all students within the Faculty, both undergraduates, as well as, postgraduates, and also work hand-in-hand with the rest of the team, so that together, we take S-Cubed further—in in the hearts of the students.

Together with the rest of the team, I can make a difference.
