

Dear President,
Executive members,

I am writing to inform you that I shall be putting forward my resignation from the role of Vice President, with immediate effect.

I have recently been accused of not doing my part in S-Cubed. This is of course a clear misrepresentation as my work in throughout these past 4 months can speak for itself and has in fact resulted in obtaining a 900€ sponsorship from the ERA, attendance various preliminary meetings for eventual conferences to be held by S-Cubed, involvement in planning the Biology department London trip, setting-up from the ground up the new S-Cubed+ programme for degree plus and helped organise the BSC Day. This serves to show my past commitment to the organisation. I was also previously involved in a past term of S-Cubed as a Social Policy Officer.

Throughout the past months certain individuals within the organisation have not made me feel welcome and in the interest of the well-being of the entire organisation I will have to step aside.

Sincerely,
Maria Falzon
